Forensic Analysis
Construction Litigation Consultants
General Construction

Watkins Services, Inc. has been serving the construction needs of the Carolinas since 1978. During that time we have become the industry leader; assisting architectural and engineering firms, with our unique highly specialized construction services. At Watkins Services, Inc., we are an unlimited general contractor, licensed, bonded, and insured; able to serve your needs no matter how large or complex. Some of our areas of expertise include:

- ✓ Expert assistance during forensic inspections and destructive testing; including lifts and staging operation
- ✓ Water testing assistance including spray rack set up, operation and negative pressure chamber construction
- ✓ Assistance in writing detailed repair scopes
- ✓ Full project consulting, management, and remediation
- ✓ Detailed project documentation using before, during, and after digital photographs in conjunction with daily written reports
- ✓ Specialized and integrated waterproofing, coating, membrane and flashing systems
- ✓ Expert witness testimony for construction defect cases backed by decades of industry experience
- ✓ Water and termite damage remediation
- ✓ Fire Retardant Treated material remediation
